Full-Stack Web Developer

Full-Stack MERN Developer specializing in React.js, Next.js, and Node.js, with proven success in building scalable e-commerce platforms, APIs, and interactive dashboards. Experienced in Agile environments, API integration, and cloud deployment.

WORK EXPERIENCE

Neoxero 06/2025 - 10/2025
Front end Developer • Full-time Mansoura, EG

I specialize in frontend development, building modern and responsive eCommerce interfaces using React. My focus is on creating fast, user-friendly, and visually engaging shopping experiences by leveraging tools like Tailwind CSS, Framer Motion, and the React ecosystem. I work on customizing Zid themes and integrating them with React to deliver seamless, conversion-focused online stores that align with each brand's identity.

Da3em 04/2025 - 06/2025
Front End Developer El Mansoura, Egypt

- Contributed to building a dynamic and responsive Smart Student platform designed to elevate the online learning experience
- Developed a quiz system with multiple question types (MCQs, True/False, Short Answers), score tracking, and timed sessions, offering students instant feedback and performance analysis
- Integrated the Zoom Meeting SDK, enabling live virtual classes and one-click session joining from the dashboard, enhancing remote learning interactivity
- Built a robust teacher dashboard for managing course materials, scheduling Zoom meetings, tracking student progress, and viewing quiz analytics—all in real time

Createvio 10/2023 - 07/2024
Full Stack Web Developer • Part-time El Mansoura, Egypt

- Developed app solutions using JavaScript, SQL, PHP, Laravel, Bootstrap, AOSweet alert, PHPflasher, and HTML, resulting in a 30% improvement in website performance through code optimization

EDUCATION

Bachelor's in Computer Engineering
Mansoura University • GPA: Very Good Mansoura, Egypt • 01/2018 - 06/2023

in Front End
ITI Mansoura, EG • 01/2022 - 03/2022

completed the ITI Frontend Development (React) track in Egypt, where I gained hands-on experience in building modern, responsive web applications using React, JavaScript, CSS, and API integrations, with a focus on creating scalable and user-friendly eCommerce solutions

SKILLS

Back end: Agile, Docker, Express.js, JWT, MongoDB, Node.js, PHP, PostgreSQL, Python, RESTful APIs, SQL, Vercel

Front end: Ajax, Axios, Bootstrap, Chart.js, CSS, Git, GitHub, HTML, JavaScript, jQuery, Material UI, Next.js, React, React Router, Redux, Redux Toolkit, REST, Router, Tailwind, TypeScript, Zid

Soft Skills: Problem-Solving & Adaptability, Technical Collaboration & Communication, Time & Project Management

PROJECTS

FreeSmile

Developed an innovative online platform connecting dental professionals and patients, streamlining appointment scheduling and communication

Smart Student – Online Learning Platform (Next, Tailwind, Zoom SDK, Redux)

Da3em

- Contributed to an interactive learning platform featuring quizzes, score tracking, and timed sessions.
- Integrated Zoom SDK for seamless virtual classes with one-click session joining.

BookStore API

BookStore API is designed to support a full-stack application for book management

Dashboard with Authentication

- Implemented client-side routing using React Router (v6)
- Created a dashboard application with authentication functionality and multiple pages

TechSphere

A full website dedicated to programming articles and resources

Book Store

Functional shopping cart implementation using modern web technologies

FreshCart – Full-Stack E-commerce Platform (React, Redux Toolkit, Node.js, Express.js, MongoDB, Tailwind, Vercel)

Developed a scalable e-commerce application with authentication, cart, and product management.

- Created an Admin Dashboard to manage users, coupons, and requests, streamlining operations.
- Optimized API and database queries, improving system performance by 25%.
- Deployed on Vercel for scalability and CI/CD automation.

Thoughts – MERN Blogging Platform (React, Redux Toolkit, Express.js, MongoDB, JWT, Multer, Cloudinary, Nodemailer, Recharts)

Built a full-stack MERN blogging app where users can create posts, like, comment, verify email, and reset passwords. Implemented secure authentication with JWT and Nodemailer, ensuring account safety. Designed a responsive frontend with React 19, Redux Toolkit, and MUI, enhancing usability and visual appeal. Developed an Admin Dashboard with Recharts analytics for user, post, and category management.

Al Nasr Store

Neoxero

I was part of the development team for Al-Nasr Store, where we used React for building a fast, interactive frontend and Zid for seamless store management, creating a responsive, user-friendly, and scalable eCommerce experience tailored to the brand's needs.

Qadsiah Store

Neoxero

I was part of the frontend team for Al-Qadsiah Store, where we used ShadCN, React, and Tailwind CSS to build a modern, responsive, and visually engaging eCommerce interface that delivers a smooth user experience and aligns with the brand's identity.

Nano Care

Neoxer

I was part of the frontend team for Nanocare's Arabic version, where we used React and Tailwind CSS to build a modern, fully responsive interface optimized for RTL support, delivering a smooth shopping experience while reflecting the brand's visual identity
